Description :

PDF-00378 | We don't often recognize the humble activity of cooking for the revolutionary cultural adaptation that it is. But when the hearth fires started burning in the Paleolithic, humankind broadened the exploitation of food and took one of several great leaps forward. All life on earth is dependent on energy from the sun, but one species has evolved to be especially efficient in tapping that supply. Thi... *Children of the Sun: A History of Humanity's Unappeasable Appetite For Energy*
